SUMMARY

A Frontend Software Engineer passionate about implementing UI/UX wireframes into dynamic, high-quality code. I focus on performance and scalability, ensuring the frontend architecture sustains a growing user base and expanding datasets. Delivering products that are not only functional but also inclusive.

EXPERIENCE

The Totem Studio, **Frontend Developer**
Jan 2021 - Present
Implementing visual elements that users see and interact within a web and web applications.
Enhancing the performance of the main frontend website and ensuring all frontend code scales well with an increasing amount of users and data.
Conducting code testing and reviews to ensure robust, bug-free applications. Adherence to quality standards.
Performing database integrations, and creating dynamic, data-driven websites.

Startup LIONS, **Frontend Web Developer**
Jul 2018 - Jan 2020
Accomplished creating responsive and dynamic user interfaces using vue.js and Nuxt.js that are mobile-friendly and accessible.
Crafting intuitive , user-centric designs and interfaces that empower users, making complex concepts accessible and simple.
Conducting code reviews to ensure adherence to quality standards.

Digital Lions, **Web Developer**
Jan 2019 - Nov 2020
At Digital Lions Fair trade Agency, I was instrumental in creating software for NGOs combating poverty, focusing on vocational training.
I implemented frontend solutions, centralizing on empowering individuals through knowledge and training. This role was pivotal in advancing the mission of NGOs on the ground.
Performing database integrations, and creating dynamic, data-driven websites.
Crafting intuitive , user-centric designs and interfaces that empower users, making complex concepts accessible and simple.

Learning Lions, **Frontend Developer**
Aug 2018 - Nov 2019
At learning Lions Institute I was pivotal in updating the school's website as a Frontend Developer. I created HTML content, ensured uniform formatting with HTML/CSS, and upheld the site's visual accuracy. I also ventured into video editing for educational content and conference presentations.

EDUCATION

SOTE HUB
Software engineering bootcamp
Completed a comprehensive NoCode bootcamp program in Software Engineering, Advancing in building a robust foundation in computer engineering principles and practical applications.

LEARNING LIONS INSTITUTE
Diploma in software engineering
Completed a comprehensive 2 years Training in Software Engineering, building a robust foundation in computer engineering principles and practical applications.

SKILLS

Nuxt.js • Vue.js • TypeScript • JavaScript • Node.js • GitHub • Cloud Firestore • Firebase • Bootstrap (Framework) • Tailwind CSS
